

Armor Wire/ Binder Tape

Aluminum Armor Wire and Binder Tape.
Rectangular Soft 1350 Aluminum.

APPLICATIONS

Used in overhead transmission and distribution line construction for purposes such as binding conductors to insulators, field assembly of aerial cable, and for armoring conductors subject to excessive wear.

SPECIFICATIONS

Southwire's binder tape meets or exceeds the requirements (as applicable) of ASTM specification:

- B609 Aluminum 1350 Round Wire, Annealed and Intermediate Tempers, for Electrical Purposes.

CONSTRUCTION

Solid, soft 1350-O aluminum rectangular wire.
