LIMITED WARRANTY FOR SOUTHWIRE POWER MANAGEMENT

Limited Warranty

Southwire Company, LLC warrants all its power management products to be free from defects in material and workmanship for a period of one hundred eighty (180) days from the date of the original end user's purchase or the date of delivery (if later than the date of purchase), but not to exceed one year from the date of manufacture. The warranty extends only to the original end user purchaser and is non-transferable. SOUTHWIRE will repair or replace the product without charge provided the conditions of the warranty are met. This warranty does not cover damage to the product caused by accident, misuse, abuse, misapplication, modification, alteration, improperly applied voltage, neglect, negligence, intentional misconduct, storage or use in harsh conditions, operation outside of specifications, abnormal handling or damage in transit.

Circuit breakers shall bear only that warranty made by the manufacturer of that product. Note: Failure associated with transient power surges, which permanently deactivate GFCI circuit breakers, are not covered by the manufacturer's warranty.

Southwire will repair or replace all products which are determined to be defective upon factory inspection, and are within one hundred eighty (180) days of purchase or date of delivery (if later than the date of purchase), or one year from the manufacture date, whichever occurs first.

No products shall be accepted for return or replacement without the written authorization of SOUTHWIRE. SOUTHWIRE does not accept products that were used, are obsolete, were sold as a custom product, or considered unsellable. This warranty does not extend to or apply to any unit from which the identification has been removed or altered. Upon such authorization, and in accordance with instructions from SOUTHWIRE, the product will be returned to the company, shipping charges prepaid by buyer.
