Southwire®

BUILDING EFFICIENCY ON-TIME, ON-BUDGET AND ON-TASK WITH SOUTHWIRE CIRCUIT PULLING SOLUTIONS!

Avoid costly delays and frustration with building solutions that power new innovations in residential and commercial construction across the nation. From pre-construction planning to installation and completion, our trusted circuit pulling experts are available to help you choose the right solutions to maximize efficiency and savings on the jobsite. With our industry leading products and expert service, we partner with you to provide labor-saving solutions for your most difficult projects start to finish. Let's exceed expectations together.

SIM*pull* Solutions® Innovations

CREATING EFFICIENCY TO REDUCE COST, ENHANCE SAFETY AND BOOST PRODUCTIVITY!

SIM*pull*® *Coil*PAK™ WIRE PAYOFF

- SIM*pull*® *Coil*PAK™ wire payoffs help increase both safety and productivity by reducing the physical effort associated with material handling, pulling wire out of the package and through conduit.
- Available with a variety of wire options including: SIM*pull*® THHN/THWN-2, TAPPAN™ Fire Alarm Cable, and XHHW (made to order).

SIM*pull* BARREL™ CABLE DRUM

- The SIM*pull* BARREL™ Cable Drum contains up to 10,000ft continuous feet of Fire Alarm per BARREL, increasing productivity and reducing the potential for injury while avoiding broken spools, excess material handling and scrap.

QWIK*rope*® PULLING ROPE

- QWIK*rope*® an innovative high performance pulling rope that is UV resistant, lightweight and ultra low stretch for all your circuit wire solutions.

PULL-IT™ WIRE PULLING DEVICE

- Durable construction and built-in rollers make wire pulling easy by eliminating restarts and scuffed wires.

SIM*pull*™ FISH TAPE

- The SIM*pull*™ Fish Tape helps execute faster, easier pulls. A low friction design allows the tape to easily glide through the conduit without binding at turns, joints or couplings, and a Non-Conductive tip allows for safe installation over existing wires.

MAXIS® XD1 EXTREME DUTY CIRCUIT PULLER

- The Maxis® XD1 extreme duty circuit puller is a safer, faster and more efficient way to pull low voltage, branch home runs, lighting cables, and small circuit sized wire.

SIM*pull*™ GRIP*it*™ CIRCUIT MANAGEMENT SYSTEM

- The SIM*pull*™ GRIP*it*™ Circuit Management System can help make every branch circuit and home run pull safer, easier and more efficient.

GUIDE*it*™ CIRCUIT ROUTER

- The GUIDE*it*™ circuit router allows for hands free guiding of circuit wire into a panel or junction box.
