

SOUTHWIRE'S PRODUCTS *WITH RETIE CERTIFICATION* FOR COLOMBIA

Southwire Company, LLC has obtained the RETIE Certification for some of our Residential/Commercial, OEM, Factory Automation, and Industrial products.

RETIE stands for "Reglamento Técnico de Instalaciones Eléctricas," Colombia's mandatory Technical Regulation for Electrical Installations. It establishes the minimum safety, quality, and compliance requirements that electrical products, equipment, and installations must meet in order to be manufactured, imported, sold, installed, or energized in Colombia.

The following products can be imported into Colombia through an authorized distributor having the Southwire's RETIE authorization letter.
