

1. OVERHEAD

- Jacketed Type MC
- Machine FLEX® Tray Cable
- QWIK WHIP™ Conduit Whip

2. DIRECT BURIAL

- Tray Cable/Exposed Run
- RWU

3. UNDERGROUND

- SIMPull® Cable in Conduit
- Building Wire (SIMPull® THHN, MTW, AWM, XHHW-2, RHH/RHW-2)
- Bare Copper Grounding
- Aluminum PV Wire 2kV
- Primary MV 5kV-35kV Tape Shield
- Multi Conductor MV Cable
- Primary MV 5kV-35kV Concentric Neutral
- USE-2
- Machine FLEX® Power Cable
- DLO
- Multi-Conductor Control Cable
- Titan®2 Liquid-Tight Metal Conduit
- Data Communication Cable

4. INSTALLATION SUPPORT

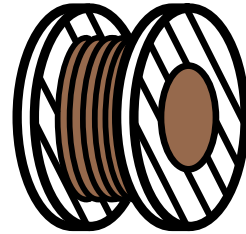

- Weatherproof Boxes
- HD Pro ELCI/GFCI
- Wobblelight® 32 Series
- Maxis® 6K Cable Puller with Motor
- TRIGGERS® Wireless Safety Switch System
- SIMPull® Reel
- QWIKrope® Feeder Pulling Rope
- Temporary Power Boxes
- Maxis® XD1 Extreme Duty Circuit Puller

DIRECTIONALLY BORING CIC IS A MUCH SAFER & MORE PRODUCTIVE ALTERNATIVE

CUT-TO-LENGTH SIMpull[®] CABLE-IN-CONDUIT

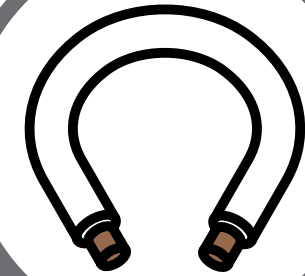

- Order custom cut lengths of our pre-pulled SIMpull[®] Cable-in-Conduit (CIC) or schedule 40 empty duct conduit, equipped with pull rope for simplified installation on the jobsite
- Designed as a prefab solution
- Improves safety, increases productivity, and helps profitability

PARALLELED AND STACKED SIMpull[®] CABLE-IN-CONDUIT REEL

Patent-pending

- Reduces scrap and clean-up by reducing the number of reels on a job
- Speeds up installation time
- Reduces the risk of injury from moving and setting up multiple reels
- Quickly identify the make-up of individual conduit contained on the paralleled and stacked CIC reel with easy-to-read tagging
- Each segment is separated with shrink-wrap between each layer

QWIK WHIP[™] CONDUIT WHIPS (CUSTOMIZED KIT)

- For home and commercial installations
- Prefab, labor-saving cable assembly for EV charging infrastructure
- Minimizes excess material
- Quick turnaround reduces installation timeline
- Customized part numbers
- No MOQ
- Savings in overall cost
