Subject: Industrial/OEM Products Price Adjustments – October 12, 2026

Dear Valued Customer,

Southwire is implementing price adjustments across our Industrial/OEM products portfolio. This pricing update reflects a comprehensive evaluation of our cost structure, non-metal inputs, and freight costs.

The price increase includes the following product groups; Cord/Tray Cable/Lead Wire/Medium Voltage Power Cables. The price increase varies by product group and ranges from 3% to 10%.

All non-contract quotations and orders will continue to default to price adjustment at the time of shipment per Southwire's Adjustable Pricing Policy.

We are closely collaborating with our raw materials suppliers and recognize the importance of maintaining a continuous supply of key wire and cable products to our customers and partners. In the coming days, your Southwire representative will reach out to you to provide further details regarding these changes.
Thank you for your continued support.

Regards,
Southwire Company
