

ABOUT

EXPERT SUPPORT WHEN YOU NEED IT MOST

Do you have a challenging project that requires a robust cable design? Or, perhaps you need emergency assistance to resolve urgent field issues. With our Re³[™] Consultation Services, you will receive premium engineering support to help you with your most challenging projects.

THE TOP 4 CHALLENGES FACED IN WIRE & CABLE APPLICATIONS

40%

of issues arise due to unforeseen damages during transit, handling, storage, pulling, connecting, installation, or testing

25%

of issues arise due to severe environmental exposures causing excess stresses on the cable systems and triggering premature failures

20%

of issues arise due to aging or overloaded assets including cables, accessories, equipment, protection devices, and monitoring systems

15%

of issues arise due to inadequately designed cable system assemblies not suitable for the demanding applications or project location

HERE ARE A FEW EXAMPLES OF HOW CableTechSupport[™] SERVICES' Re³[™] CONSULTATION SERVICES CAN HELP

1 PROJECT PLANNING

Design the Most Robust Products for Challenging Applications or Unique Projects

2 FIELD SUPPORT

Provide Emergency Responses to Resolve Urgent Field Issues and Unplanned Operational Delays

DESIGN & SELECT CABLES WITH ACCESSORIES

CONDUCT COMPLEX MODELING & CALCULATIONS

CREATE CUSTOM INSTALLATION GUIDELINES

INSPECT & TEST CABLES

CUSTOMIZE INSTALLATION & REPAIR PROCEDURES

VALIDATE PULLS OR TESTING RESULTS
