

Southwire®

# ~~DELAYED~~ ON SCHEDULE

## ABOUT

### CUSTOMER

Battaglia Electric

### PRODUCT

SIMPull Solutions® Products

### LOCATION

Milford, DE

### CIRCUMSTANCE

Meeting deadlines under challenging time constraints while maintaining safety requirements.

A hospital located in Milford, DE totals roughly 430,000 square feet amongst its 6 floors built from the ground up. It is equipped with a vast variety of operating rooms, full imaging patient care rooms, and an emergency department with aircraft access.

Battaglia Electric teamed up with Southwire ordering over 25 SIMpull™ Reels, **providing maximum labor savings and accelerated schedule advantages.** A perfect example of this is Release 8 consisting of 11 pulls located on the 3rd floor. **One SIMpull™ Reel totaling 12,150' of cable installed in 50 man hours!**

Ensuring that deadlines are met on large-scale projects like this can be daunting, let Southwire SIMpull Solutions® Innovations help you take your project from delayed to on schedule.

## DON'T JUST TAKE OUR WORD FOR IT

“  
*Southwire played a huge role, along with the planning and preparation of my team from the field to the office, in making this hospital project possible. I have worked with Southwire on other projects since the Hospital including a large data center project.*  
”

Kenny Burnett  
SUPERINTENDENT | BATTAGLIA ELECTRIC
